Dear Sirs,

New Town World Heritage Site and Communal Bin Hubs

We understand that you are backing the New Town and Broughton Community Council's [NTBCC] views on the City of Edinburgh Council's plans to implement communal bin hubs throughout Edinburgh.

Please note that we, Stockbridge and Inverleith Community Council, and its relevant Residents' Associations, very much echo NTBCC's views. We are joining NTBCC in deploring these plans, the lack of due and proper prior consultation in the taking of this decision by the Transport and Environment Committee, and the underhand method of implementation through Traffic Regulation Orders, rather than by way of the tried and tested planning system.

We would be most grateful to you for all support you can give to us in this matter.

Yours sincerely,

Tannis Dodd

Secretary, Stockbridge and Inverleith Community Council
